

Water Feature & Fountain Technician

Job Description

Fountains and Ponds are a distinctive feature for our clients – peaceful, serene, and unique. Our Water Feature & Fountain Technician often works independently to maintain features, troubleshoot water flow, and repair mechanical issues.

What do we have to offer?

Here at Waterwise Land and Waterscapes, Inc. we have been making people's outdoor living visions come to life for more than 20 years. We have a fantastic group of good people that band our teams together and make our projects enjoyable to work on, with quality that we are proud to showcase – and we're looking for more!

We also offer weekly paychecks, PTO, paid holidays, some flexible hours, training opportunities & fantastic crew to work with!

Duties & Responsibilities:

- Regular cleaning, maintenance and improvements of water features.
- Interact directly with clients to address feature issues as needed.
- Assess for and make repairs to liners, pumps, skimmers, plumbing, etc.
- Take all proper Safety measures on job sites; assist others in working safely as well.
- Facilitate and be a resource for new feature construction

Requirements:

- Valid Colorado Driver's License with a record of safe driving.
- Recent experience with pumps and water circulation mechanics, both indoor and outdoor applications.
- Experience with power tools and hand tools.
- Good understanding of water feature construction.
- Some background in aquatics and interest in moving water around
- Interest in gaining new skills and learning more about water features.
- Love for the outdoors and outdoor work.
- Ability to perform various physical tasks.
 - Lift up to 100 lbs.(must ask for help when lifting over 50lbs)
 - Work outdoors, regardless of weather conditions: hot, cold, rain, or shine.
 - Kneel crouch, bend over, twist, etc., and be on your feet for 8+ hours.

Awesome stuff but not required:

- Experience with Volt Meters and electrical wiring.
- Experience with irrigation and outdoor plumbing.
- Experience with fish and aquatic plants
